

# Sacred Knowledge

"Sacred Knowledge" is a UK-based initiative formed in 2007. Entirely independent, non-profit and volunteer based, it is committed to the promulgation of "al-'Ilm al-Sharif".

We organise qualitative and dynamic programmes with the intention of spreading the blessings of Islam and reviving the Prophetic way of living. By bringing this precious knowledge to life for the western audience we hope to inspire a positive transformation in our intellectual, moral and spiritual condition.
